The **Secular Party of Australia** is concerned about the rising influence of religion on government policy. We wish to establish and maintain a true separation of church and state in Australia.

WE STAND FOR:

- The use of science for human welfare, such as stem cell research
- Rights of people to control their own destiny, such as voluntary euthanasia
- The use of rationality to address social, economic and environmental issues

WE STAND AGAINST:

- Government subsidies and tax breaks for religious organisations
- Government support of schools which force religion onto all students
- Discrimination based on gender, ethnicity, religiosity or sexuality

HOW TO VOTE SECULAR:

- The Secular Party name will not be printed on the ballot sheet.
- Print out this form and take it to the polling booth on November 24, 2007.
